PROFILE

Full Stack Software Engineer experienced in building scalable web and mobile applications using React, Flutter, Node.js, and Python. Passionate about creating high-performance, user-centric solutions with strong expertise in modern development practices and Agile workflows.

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Apprays 11/2025 – Present

- Developed scalable web and mobile applications using **React.js, Flutter, JavaScript, and Python**, improving application performance and user experience.
- Built and integrated **RESTful APIs**, secure authentication systems, and backend workflows for seamless frontend-backend communication.
- Designed and optimized **SQL/NoSQL databases**, improving query efficiency and application scalability.
- Implemented reusable UI components, responsive interfaces, and state management solutions across multiple platforms.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment to deliver high-quality features within sprint timelines.
- Performed debugging, code reviews, testing, and performance optimization to maintain clean and maintainable codebases.
- Integrated third-party APIs and cloud-based services while ensuring security, reliability, and scalability.

EDUCATION

Forman Christian College University FCCU, BS Computer Science

Key Courses: Discrete Mathematics Linear Programming Operations Research, Mobile Application Development, Design Principle, Human Computer Interaction

PROJECTS

Sooraj Crop Science 🌱, Corporate Agriculture Website

Designed and developed a modern corporate website for an agriculture-based company to showcase products, research content, and brand identity. Integrated chatbot APIs, dynamic media sections, downloadable brochures, and social media content while optimizing responsiveness and performance across desktop and mobile platforms.

United Energy 🌞, Solar Energy Company Website

Built a professional web platform for a leading solar solutions company and authorized dealer of BYD and Canadian Solar in Pakistan. Enhanced customer engagement through responsive UI/UX design, service-focused layouts, and optimized performance for improved accessibility across devices.

Meat Exporter App 🥩, Meat Supply & Export Management Solution

Designed and developed a modern business management application for meat exporters to manage inventory, orders, supplier operations, and export workflows through a centralized platform. Focused on scalable architecture, responsive UI/UX, and seamless business process management to simplify operations and improve efficiency for export-based businesses.

SKILLS

Full Stack Development & Framework

React, Node.js, Django, Flutter, Dart, JavaScript/TypeScript, Python, Restful APIs, React-Native, Fragments, Activities, ViewGroups, Core Data, App Bundles, App Size & Image Optimization, Component-Based Architecture.

Data, Networking & Security

REST APIs, JSON Parsing, HTTP Networking, MySQL, PostgreSQL, SQLite, Core Data, Firebase Realtime Database, OAuth 2.0, JWT, Biometric Authentication, Secure Authentication. Firebase Crashlytics, Analytics, Session Management, API Integration, Secure Backend Development.

Architecture & Reactive Programming

LiveData, StateFlow, Provider/Bloc (Flutter), Redux, Unit Testing (JUnit, Jest), UI Testing (Espresso), Automated Testing.

DevOps & Professional Workflow

Git, Azure DevOps, Jenkins, CI/CD Pipelines, Agile, Scrum, Sprint Planning, Android Studio, Xcode, VS Code, Postman.

Programming & Tools

JavaScript, Python, Java, C++, SQL, HTML, CSS, Draw.io, VS Code, Problem Solving, Debugging & Performance Optimization.
